HAFIZ NAZWA NUGRAHA

Computer Science Student (CGPA 3.71), Software Engineer
Hafiznugraha1311@gmail.com, +62 811-5100-900
https://github.com/fish-shy | https://www.linkedin.com/in/hafiz-nazwa-nugraha

Computer Science undergraduate focused on backend engineering, system architecture, and data science. Possesses experience developing robust server-side applications and RESTful APIs, while actively expanding expertise in machine learning, deep learning, and predictive modeling. Accustomed to working in cross-functional teams, result-oriented, and committed to building efficient, data-driven digital solutions.

EDUCATION

Lambung Mangkurat University — **Banjarbaru, South Kalimantan**
Bachelor of Computer Science | GPA: 3.71 / 4.00 — June 2023 – Present

WORK EXPERIENCE

PT. Ruang Algo Multimatics — **Banjarbaru, South Kalimantan**
Freelance Software Engineer — December 2024 - April 2026

- Develop and maintain Client/Corporate websites using Nuxt.js and WordPress.
- Develop and maintain Corporate mobile applications.
- Collaborate and Designing with UI/UX teams to translate designs into interactive and responsive interfaces.
- Perform QA Testing, debugging, and performance optimization to improve application stability and speed.

Freelance Mobile Developer — **Banjarbaru, South Kalimantan**
Freelance Flutter Developer — October 2025 - December 2025

- Develop mobile applications according to client requirements using Flutter.
- Design UI/UX, database structures, and application workflows to meet user needs.
- Conduct testing and application refinement based on user evaluation results.

ACHIEVEMENT

1st Place – Kavinya Digital Innovation Competition — **June 2026**
Acted as the Backend Developer, responsible for designing the server-side architecture, integrating sentiment analysis capabilities, and managing deployment.

2nd Place – Permikomnas Hackathon — **June 2025**
I contributed as the Backend Developer. Implemented the server-side architecture with Next.js and PrismaDB ensured robust data management and seamless AI integration using OpenRouter.

Finalist Top 80 – DIGDAYA Hackathon 2026 — **June 2025**
Served as Team Leader and Backend Developer. Led a cross-functional team to develop CreativeChain, overseeing both project management and the core server-side architecture.

Qualified Finalist – 3rd International Student Competition (ISC) — ***August 2026***
Served as Team Leader. Qualified for the international finals by developing a predictive model using K-Means Clustering and Apriori Association Rules to address irrigation resilience and sustainable food security.

CERTIFICATIONS & TRAINING

Data Scientist Cohort | Coding Camp powered by DBS Foundation **February 2026 – July2026**

Completed an intensive data science training program focused on statistical analysis, predictive modeling, and machine learning. Utilized Python (Pandas, NumPy, Scikit-learn) for exploratory data analysis (EDA) and data visualization.

SKILL

Hard Skills:

- **Web Development:** Frontend & Backend (Nuxt.js, HTML, CSS, JavaScript)
- **Data Science:** Python, Exploratory Data Analysis (EDA), Predictive Modeling, Machine Learning
- **Database Management:** MySSQL, PostgreSQL

Soft Skill:

Teamwork, Problem-solving, Time Management, Adaptability, Critical Thinking.

Tools & Software :

Visual Studio Code, Git, GitHub, Postman, JIRA, Excel, Google Docs.
